Descripción de los resultados

Durante el tercer trimestre del ejercicio fiscal 2026, se registró un desempeño sobresaliente en el cumplimiento del indicador F.P. C01.A03 "Número de notificaciones realizadas", correspondiente al Programa Presupuestario E019 – Conciliación de Conflictos Laborales, alineado al Programa PED 3.16 Trabajo Inclusivo y Justicia Laboral. Este indicador tiene como objetivo medir las acciones relacionadas con la notificación del procedimiento de conciliación laboral prejudicial, etapa fundamental para garantizar que las partes involucradas tengan conocimiento oportuno del inicio y desarrollo del proceso conciliatorio, para el periodo comprendido de julio a septiembre de 2026, la meta programada en el sistema SIPPRES fue de 4,500 notificaciones, conforme a la programación trimestral establecida para este indicador, cuyo objetivo anual asciende a 17,500 notificaciones, bajo un esquema de periodicidad trimestral y tipo de meta acumulativa. No obstante, derivado del incremento en la atención de solicitudes y del fortalecimiento de las acciones operativas del Centro, durante el segundo trimestre se realizaron un total de 7,272 notificaciones, lo que representa 2,772 notificaciones adicionales respecto a lo programado inicialmente.

Este comportamiento refleja una gestión institucional eficiente, con capacidad de respuesta y alto compromiso con la ciudadanía, al garantizar que un mayor número de procedimientos de conciliación laboral prejudicial cuenten con las notificaciones correspondientes para su adecuado desarrollo, de acuerdo con los parámetros establecidos para la evaluación del desempeño, el resultado obtenido ubicó al indicador dentro del rango de semaforización color amarillo, con un nivel de cumplimiento del trimestre de 161.6% lo que significa que la meta programada fue superada de manera significativa. Si bien este resultado supera ampliamente lo previsto en la planeación inicial, también evidencia un incremento en la actividad institucional y en la demanda de los servicios de conciliación laboral prejudicial, derivado de la confianza que la población deposita en estos mecanismos alternativos de solución de conflictos.

En términos generales, el desempeño del indicador es altamente favorable, ya que contribuye a fortalecer la cobertura de los servicios institucionales, garantizar la adecuada comunicación procesal entre las partes y promover la solución pacífica de los conflictos laborales. Con ello, se consolida el acceso efectivo a la justicia laboral y se reafirma el compromiso institucional de impulsar una conciliación laboral eficiente, cercana a la ciudadanía y orientada a resultados en beneficio de las y los trabajadores y empleadores del Estado.
